

CALIFORNIA HEALTHIER LIVING COALITION

In-Person Meeting

WEDNESDAY, NOVEMBER 20, 2013
10:30 AM – 2:30 PM

C A L I F O R N I A
HEALTHIER LIVING

Living Your
Best Life...

CROWNE PLAZA – LOS ANGELES AIRPORT
5985 WEST CENTURY BLVD.
LOS ANGELES, CA 90045

CALIFORNIA WELLNESS PLAN

California Department of Public Health

PREVENTION FIRST: ADVANCING THE CALIFORNIA WELLNESS PLAN

Majel Arnold, MS-HSA
Chief, Chronic Disease Prevention & Management
Chronic Disease Control Branch
California Department of Public Health

California Wellness Plan Outline

- Background
 - Funding, Deliverables
- CDPH Vision for Chronic Disease Prevention
 - Coordination, Evidenced-based strategies, Prevention Approach
- Next Steps for Implementation
 - Statewide Meeting

CALIFORNIA WELLNESS PLAN BACKGROUND

California Wellness Plan

Background

- In September 2011, CDPH was awarded a Center for Disease Control & Prevention (CDC) grant to:
 - Establish infrastructure to support and facilitate coordination of chronic disease prevention and health promotion efforts within and across programs and sectors
- Deliverables included:
 - Lead a statewide multi-sector chronic disease prevention coalition or join existing coalition
 - Guide the development of a multi-year Chronic Disease Prevention State Plan and support its implementation

California Wellness Plan

Background

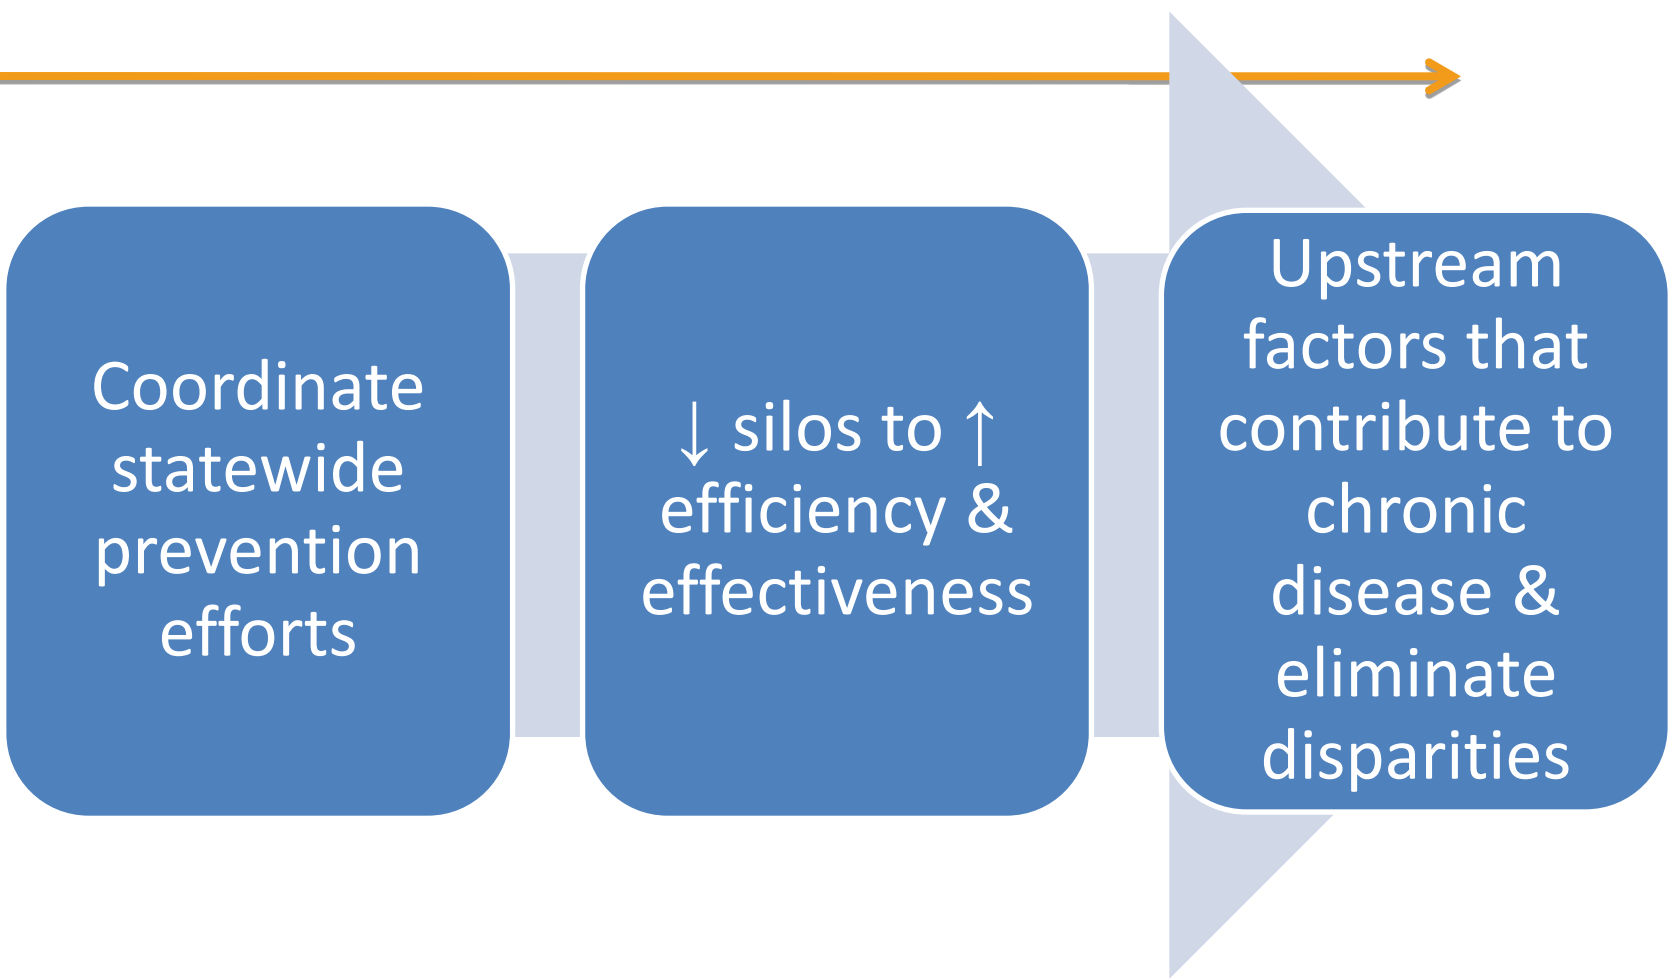

- January 2013 – Regional Partner Meetings
 - Share Plan Goals and Proposed Strategies
 - Share the process to obtain input on the proposed strategies and learn about partner organization activities
- March – September 2013
 - Continue to work with Advisory Group and Key Stakeholders to obtain input on Plan Objectives and Implementation

MISSION & VISION

CDPH VISION FOR CHRONIC DISEASE PREVENTION

CDPH NEW DIRECTION

Coordinate
statewide
prevention
efforts

↓ silos to ↑
efficiency &
effectiveness

Upstream
factors that
contribute to
chronic
disease &
eliminate
disparities

CDPH NEW DIRECTION

- **Chronic disease incidence can be decreased and quality of life for those with chronic disease can be improved by:**
 - Full Spectrum of Prevention approach
 - Evidence-based strategies
 - Statewide partnerships across sectors (Health in All Policies)

California Wellness Plan

Key Components

Let's Get Healthy California Taskforce Report

The diagram features a horizontal orange arrow pointing right across the top. On the left side, there are two vertical arrows: a green one and a blue one, both pointing downwards. The blue arrow points to the CDPH logo at the bottom left. Three blue rounded rectangular boxes are stacked vertically on the right side, each containing a key component. Each box is connected to the vertical arrows by a bracket-like line on its left side.

Incorporates input from multiple sectors

Addresses the full Spectrum of Prevention

CALIFORNIA WELLNESS PLAN

A green vertical line and a blue vertical line run down the left side of the slide. A horizontal orange arrow points from the left edge towards the right, ending just before the 'Purpose' bullet point.

- **Purpose**

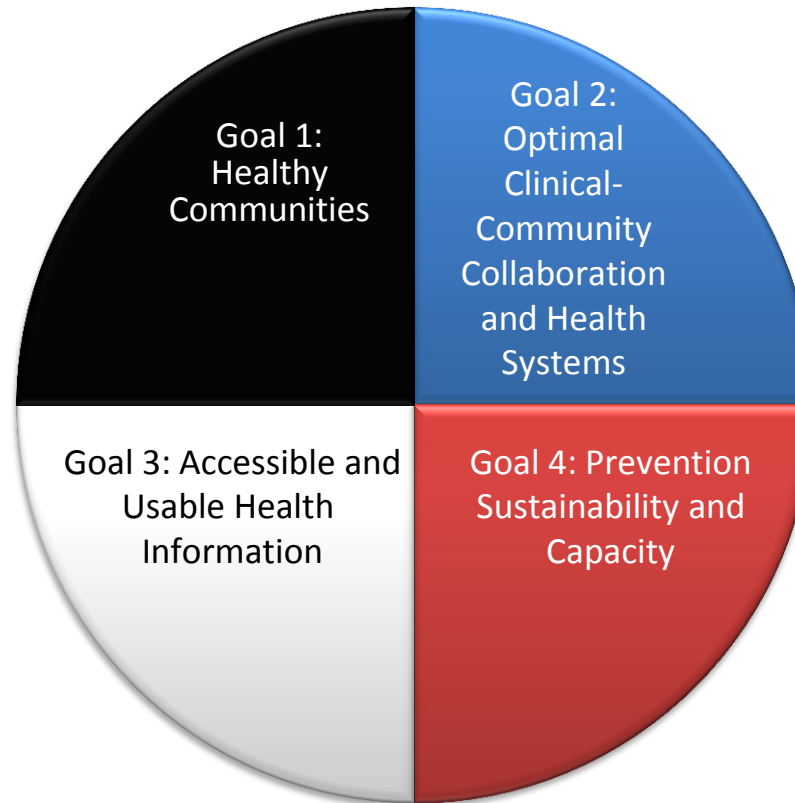

Outline a roadmap to prevent and optimally manage chronic disease, that CDPH and statewide partners will implement collectively over the next 10 years

- **Partners**

Local health agencies, sister state departments, non-profit and community-based organizations

California Wellness Plan

Goals

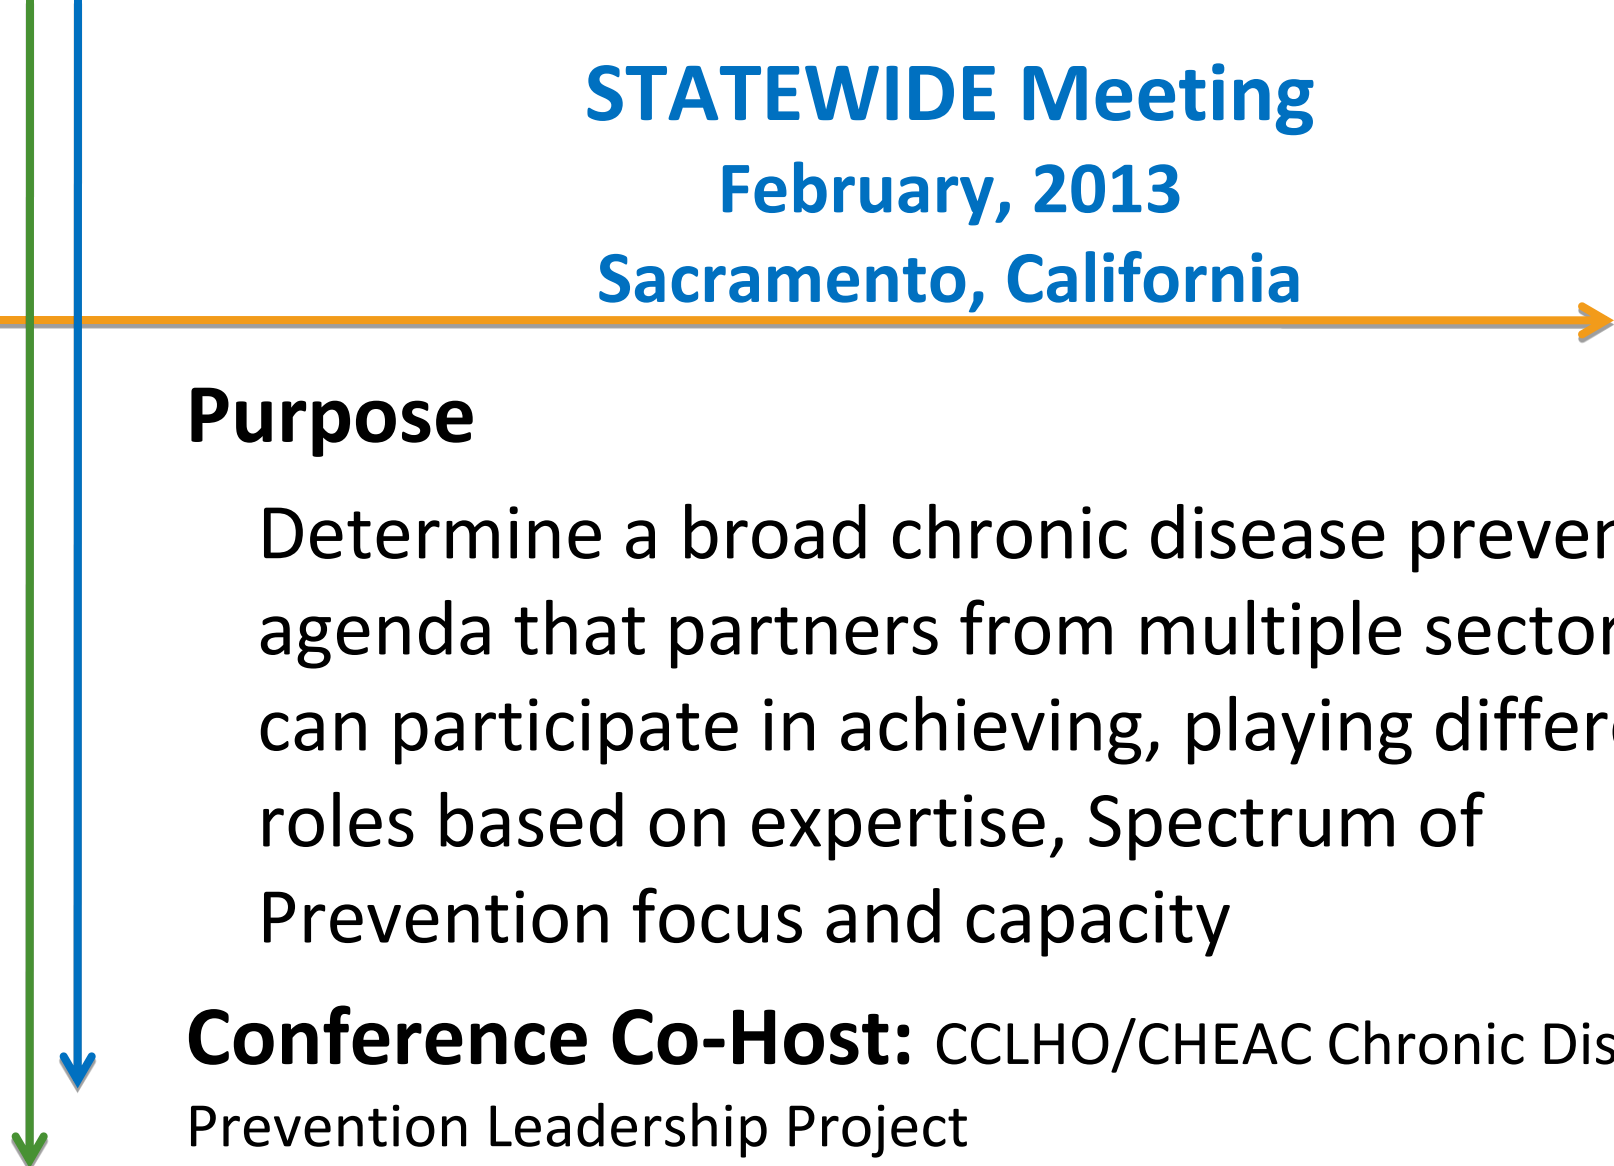

NEXT STEPS FOR IMPLEMENTATION

STATEWIDE Meeting

February, 2013

Sacramento, California

A green vertical line and a blue vertical line run down the left side of the slide. At the bottom of each line is a downward-pointing arrow. A horizontal orange arrow points from the left towards the right, starting under the word 'California' and ending under the word 'Meeting'.

Purpose

Determine a broad chronic disease prevention agenda that partners from multiple sectors can participate in achieving, playing different roles based on expertise, Spectrum of Prevention focus and capacity

Conference Co-Host: CCLHO/CHEAC Chronic Disease Prevention Leadership Project

Meeting Goals

- 
- 
- **Introduce the California Wellness Plan** to public health and wellness leaders throughout the State
 - **Support its implementation** by identifying existing resources and efforts that could be leveraged, and determine gaps that can be filled by various sector partners
 - **Identify specific priorities** for California to move forward with to carry out the Plan in the coming year
 - **Obtain commitments from key partners** to collectively contribute to implementation of the Plan and establish a mechanism for ongoing coordination and communication across sectors as the agenda is carried out

Vision without action is merely a dream. Action without vision just passes the time. Vision with action can change the world.
-Joel A. Barker

Changing Health Policies & Pathways to CDSME Programs

HEALTHIER LIVING

Living Your
Best Life...

IHI Triple Aim Initiative

Better Care for Individuals, Better Health for Populations, and Lower Per Capita Costs

- ✓ **Better care for individuals.**
- ✓ **Better health for populations, and**
- ✓ **Lower per capita costs**

Institute for Healthcare Improvement

Growing Epidemic of Chronic Diseases

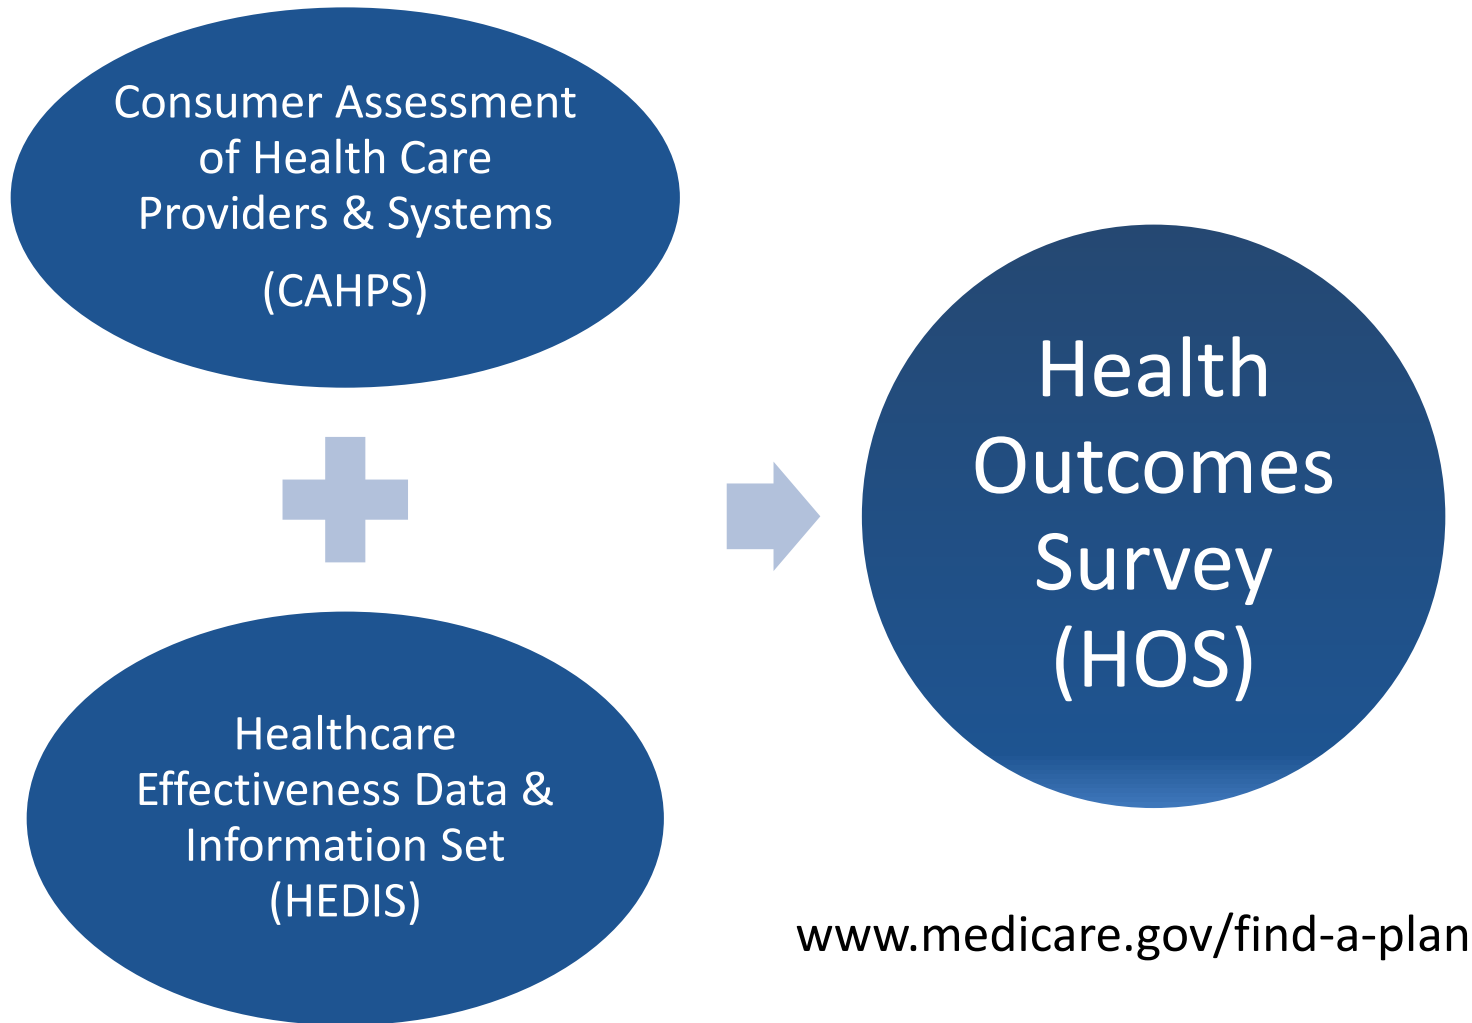

- 40% of adults age 20+ have a chronic health condition (over 90% by age 65)
 - Risks involve diet, smoking, falls, alcohol & substance abuse, stress, and social isolation
 - 70% of these conditions are tied to behavioral and environmental factors
-“Self management” is crucial—what I do or do not do when I am NOT with my health care provider (*which is over 95% of the time...*)

Key Health Reform Themes

- Population based approach—high/low risk
- Evidence-based interventions/programs
- Person centered medical home
- Multidisciplinary team approach—addressing the whole person
- Focus on prevention and chronic care models
- Measuring provider accountability and paying based on performance outcomes

Performance Rating – Current Medicare Star System

www.medicare.gov/find-a-plan

Medicare Star Rating

Health Plan performance is measured on 50 items—categories include:

- Staying healthy: screening, tests, vaccines
- Managing chronic conditions
- Member experience with health plan
- Member complaints, problems getting services & health plan improvement
- Health Plan customer service

Medicare Advantage Plans receiving 4+ stars receive bonus & higher rebates

Carrot and Stick Approach

- Many of the initiatives & pilots authorized by the Centers for Medicare & Medicaid used financial incentives (the “carrots”) in payment methodology
- Penalties/withholds will be applied for poor performers
- Focus on payment for health care outcomes rather than volume of care—charts a new course in pursuing quality improvement in health care.

These Strategies Are Already Underway...

Medicare now has two payment incentive programs for hospital to promote accountability for quality care

- Value Based Purchasing gives bonuses to hospitals on how well they performed on 24 quality measures. 45% of that score is based on following clinical care standards; 35% based on how patients felt they were treated
- Penalties for unusually high rates of re-hospitalization within a month. In 2013, two thirds of CA hospitals will receive reduced reimbursements under this program.

Carrots and Sticks cont.

- Medicare Advantage Health Plans already receive bonuses/penalties based on quality metrics
- In 2015, the health reform law calls for the government to begin quality payment program for physician groups of 100+ professionals.
- By 2017, it is expected that this program will be expanded to all doctors.

NCQA Must Pass Elements

National Committee for Quality Assurance (NCQA) Certification Process for Person Centered Medical Home --6 must pass elements:

- Access during office hours
- Use of data for population management
- Care management
- Active support of patient self-management 
- Referral tracking and follow up 
- Continuous quality improvement

Evolving Environment

- Focus on entire insured population
- Risk stratification & intervention based on patient prior health care utilization & diagnosis
- Attention to quality metrics
- Patient Centered Medical Home—shift to viewing the patient as a whole being at the center of their own health. Team based approach to meeting care needs.

Evolving Care Environment cont.

- Locus of care expanding—from solo doctor to team approach that included care managers that will continue to engage in “high risk” patients on an on-going basis (*new CDSME referral source*)
- “High risk” patients will include many who have multiple chronic health conditions
- Clear recognition that behavioral changes don’t magically occur after an office visit...

What's Important to Know...

- Health plans are looking for strategies to reduce avoidable re-hospitalizations, ER visits, and interactions that do not lead to better chronic care management
- Health plans and providers will be looking for outcomes that demonstrate CDSME programs lead to improved patient outcomes
- Care management entities have taken on a new level of importance & involvement in working with patients with chronic health conditions. These organizations can be
 - Within the health plan or physician provider group; or
 - A contracted outside organization

CDSME Sustainability--Connecting with Health Systems

- We know that CDSME programs are proven, powerful tools that help individuals make positive changes for their health and quality of life
- To reach scale & make these programs widely accessible, we need to share this knowledge with those who can shape health care policy and resource allocation
- Healthcare systems need feedback mechanisms to prove CDSME programs are a worthwhile investment
- The time is absolutely right for this dialogue and deeper partnership building

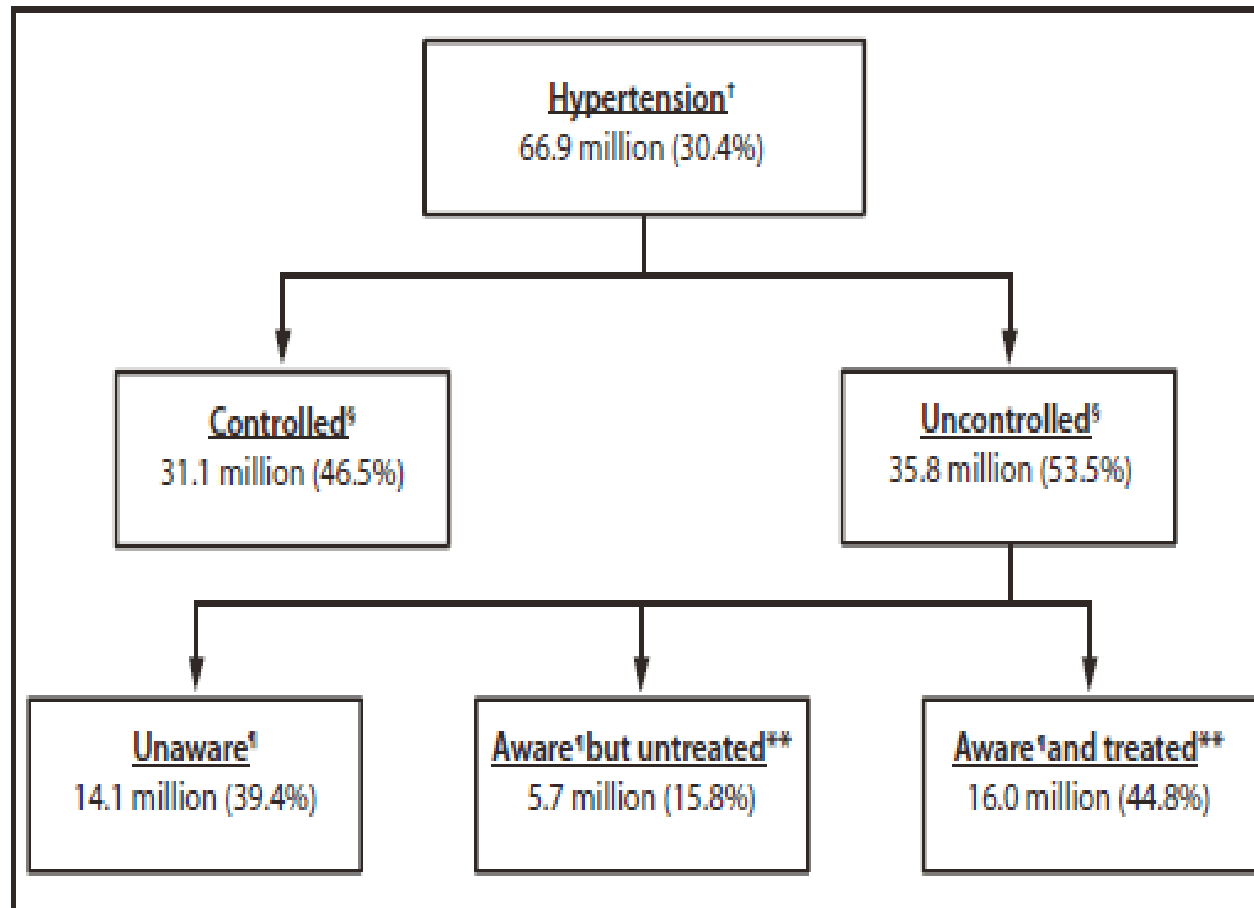

Strategies for Policy and Systems Change

Living Your
Best Life...

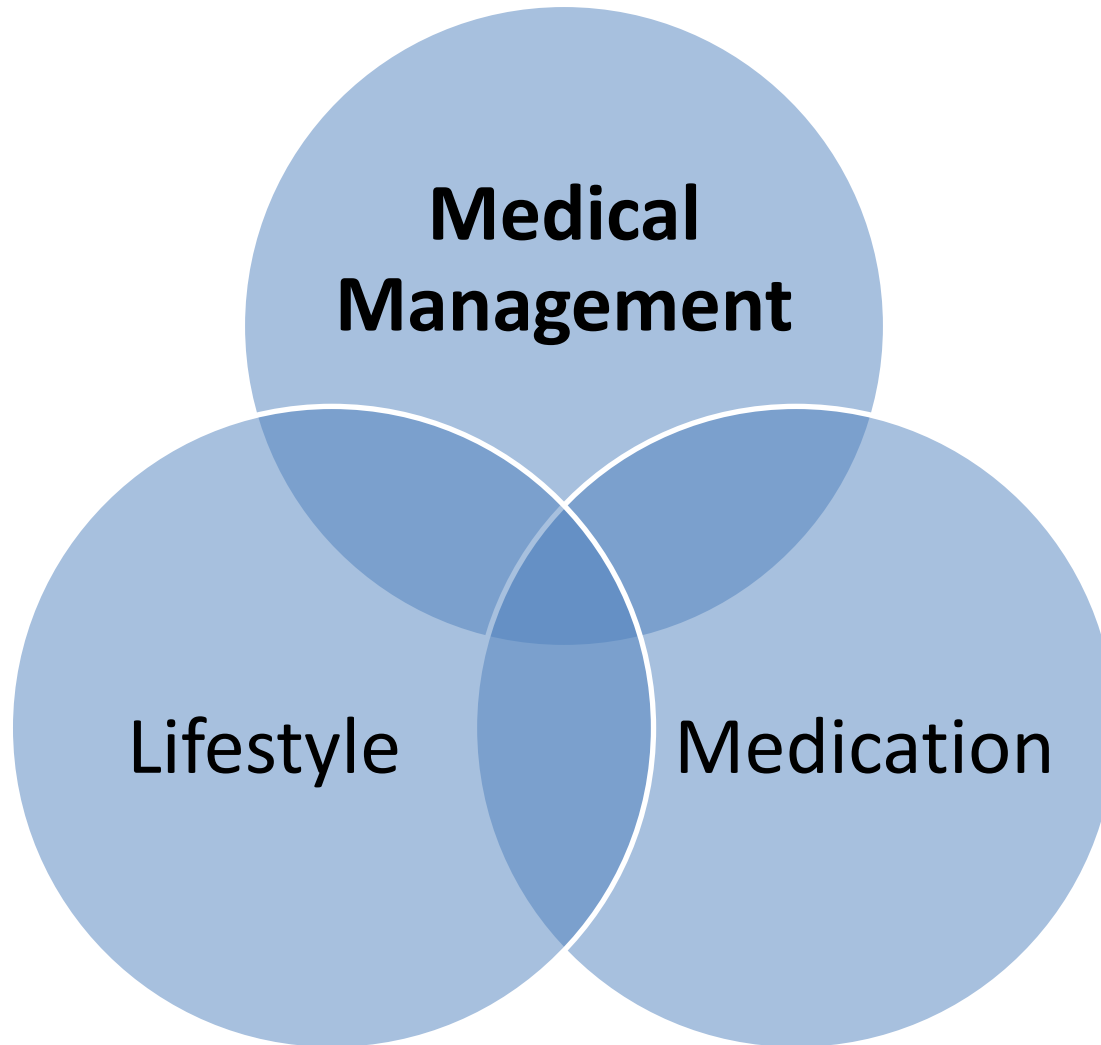

CURRENT SICK CARE SYSTEM RESULTS

CLINICAL CARE OR ENVIRONMENTAL?

*“Health care has been largely a private matter between patients and clinicians, taking place inside the walls of an exam room. Many clinicians know that by the time a patient reaches their office, **health has already been irrevocably compromised by factors that they are ill-equipped to address.**”*

CDSME Supports Medical Management

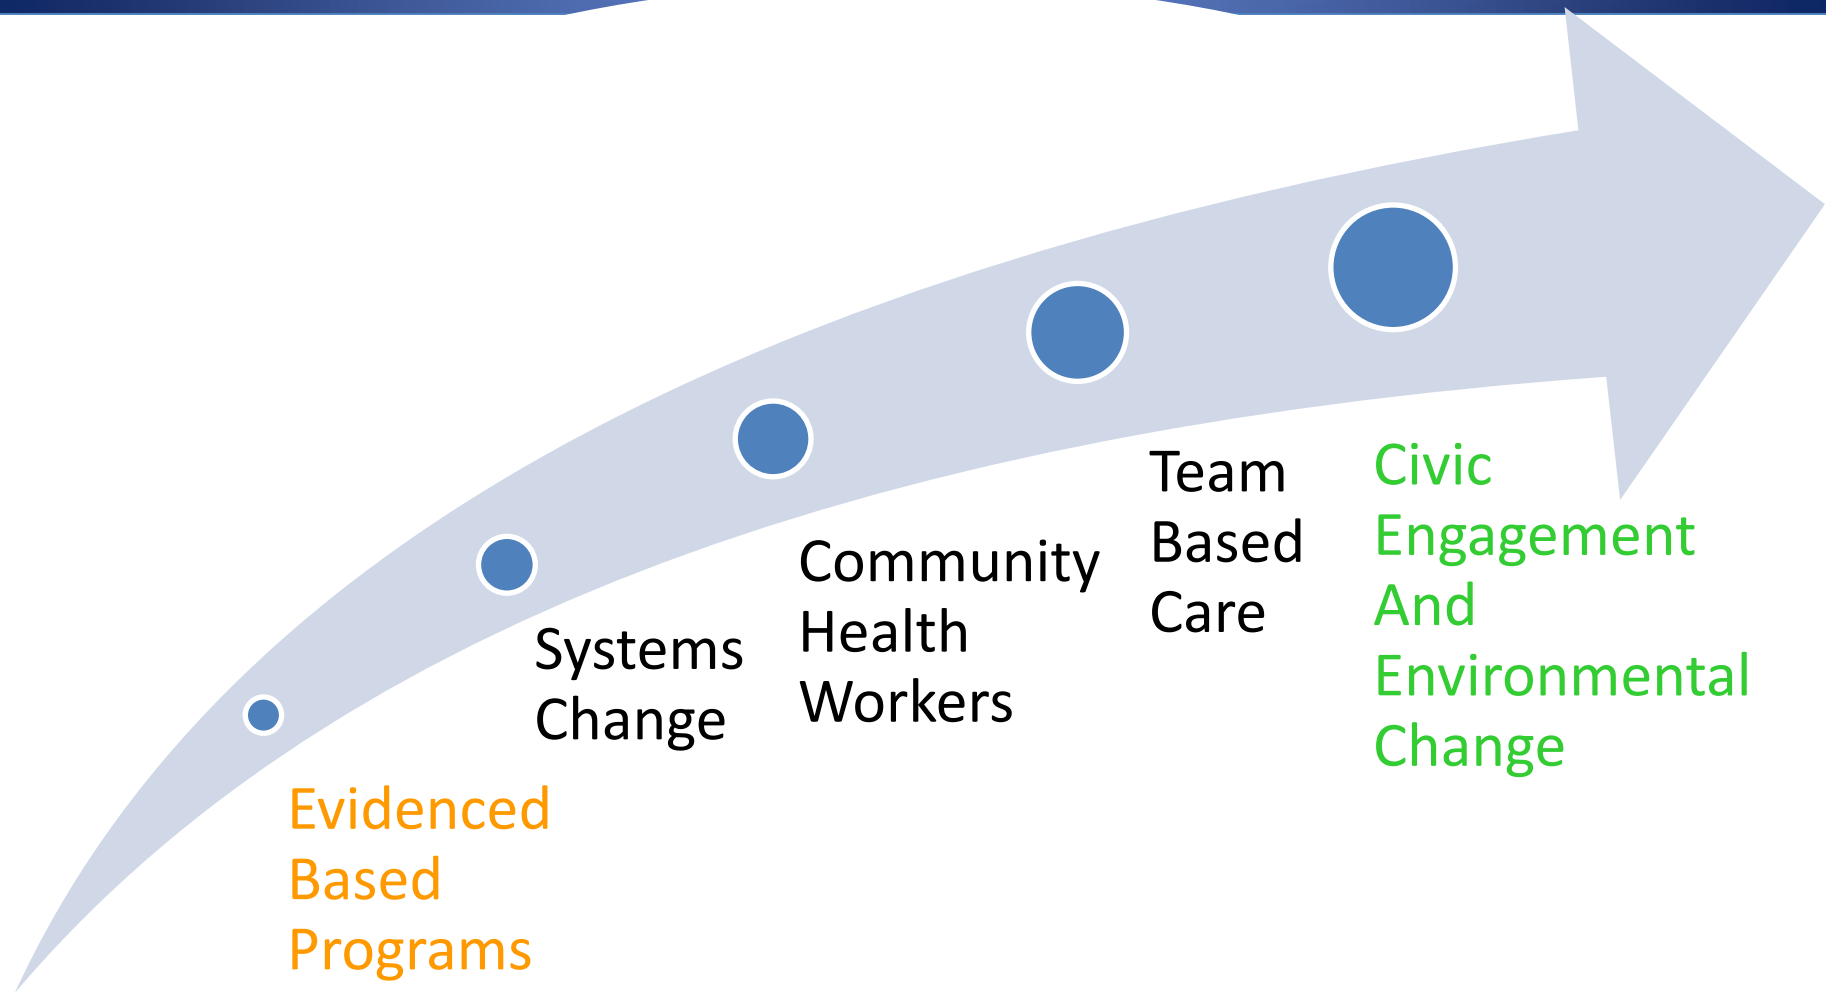

Looking to the Future

Adding Value

Evolution of Clinical-Community Linkages

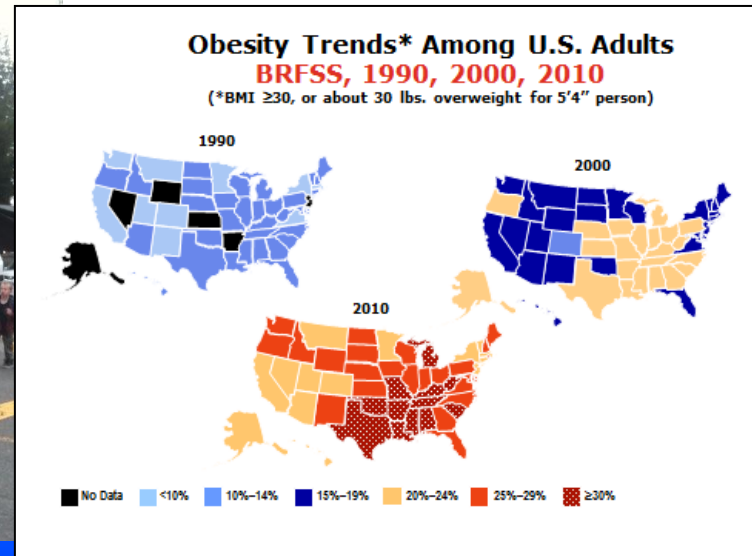

Community Health Workers

- Occupational Regulation
 - Core skills and competencies
 - CHW standards of practice
- Workforce Development
 - Assessment
 - Training
 - Bridge gaps
 - Expand and enhance skills and knowledge
- Financing
 - Demonstrate value of CHWs
 - Sustainability

CHWs (21-1094) assist individuals and communities to adopt healthy behaviors. Conduct outreach for medical personnel or health organizations to implement programs in the community that promote, maintain, and improve individual and community health. May provide information on available resources, provide social support and informal counseling, advocate for individuals and community health needs, and provide services such as first aid and blood pressure screening. May collect data to help identify community health needs.

*Community Health Worker Standard
Occupational Classification from 2010
Department of Labor, Bureau of Labor and
Statistics.*

Paths to Program Sustainability

An Urban Case Study

C A L I F O R N I A
HEALTHIER LIVING

Living Your
Best Life...

“Sustainability is more than fundraising and capacity building”

Integrated Model for CDSME Program Sustainability

Adapted from “The Path to Program Sustainability” by Karen Buck, 2013 Nonprofit Impact, www.nonprofitimpact.com

This article and workbook are available for free on this website

Integrated Model of Sustainability

Sustainability...needs to focus on “all aspects of a program as a coherent whole *rather than singling out funding* as the key to sustainability.”

The program needs to have:

- A strong, clear identity
- A base of engaged constituents
- Capacity that is aligned to deliver the results promised
- Ability to meet the needs of its constituents

Source: Nonprofit Impact, 2009

Organizational Lifecycle

➡ Transition point to get to the next level

Source: Nonprofit Impact, 2009

Aging & Independence Services (AIS)

- Centralized County Social Services Agency and Area Agency on Aging;
- Active Participant in *Healthy San Diego* Coalition
- Key local agency in pursuing integrated health and long term services and supports for over 15 years

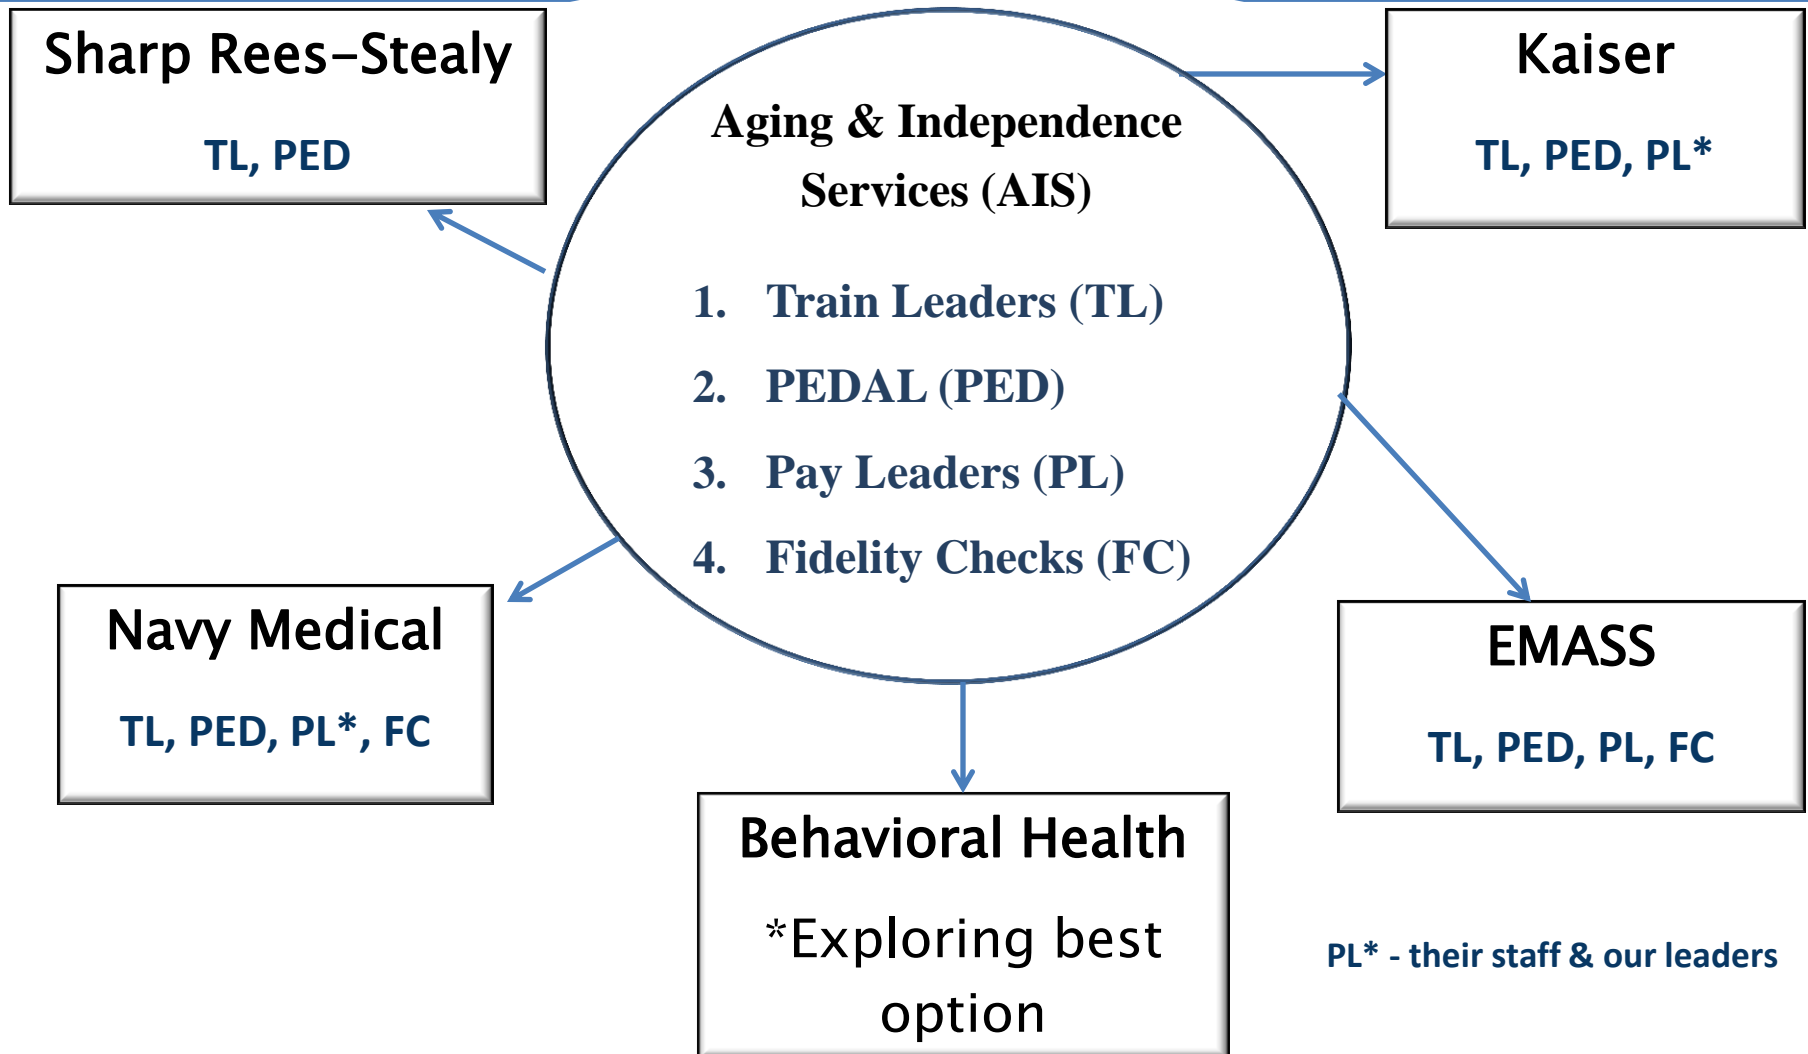

ALS Interconnected Initiatives/Programs

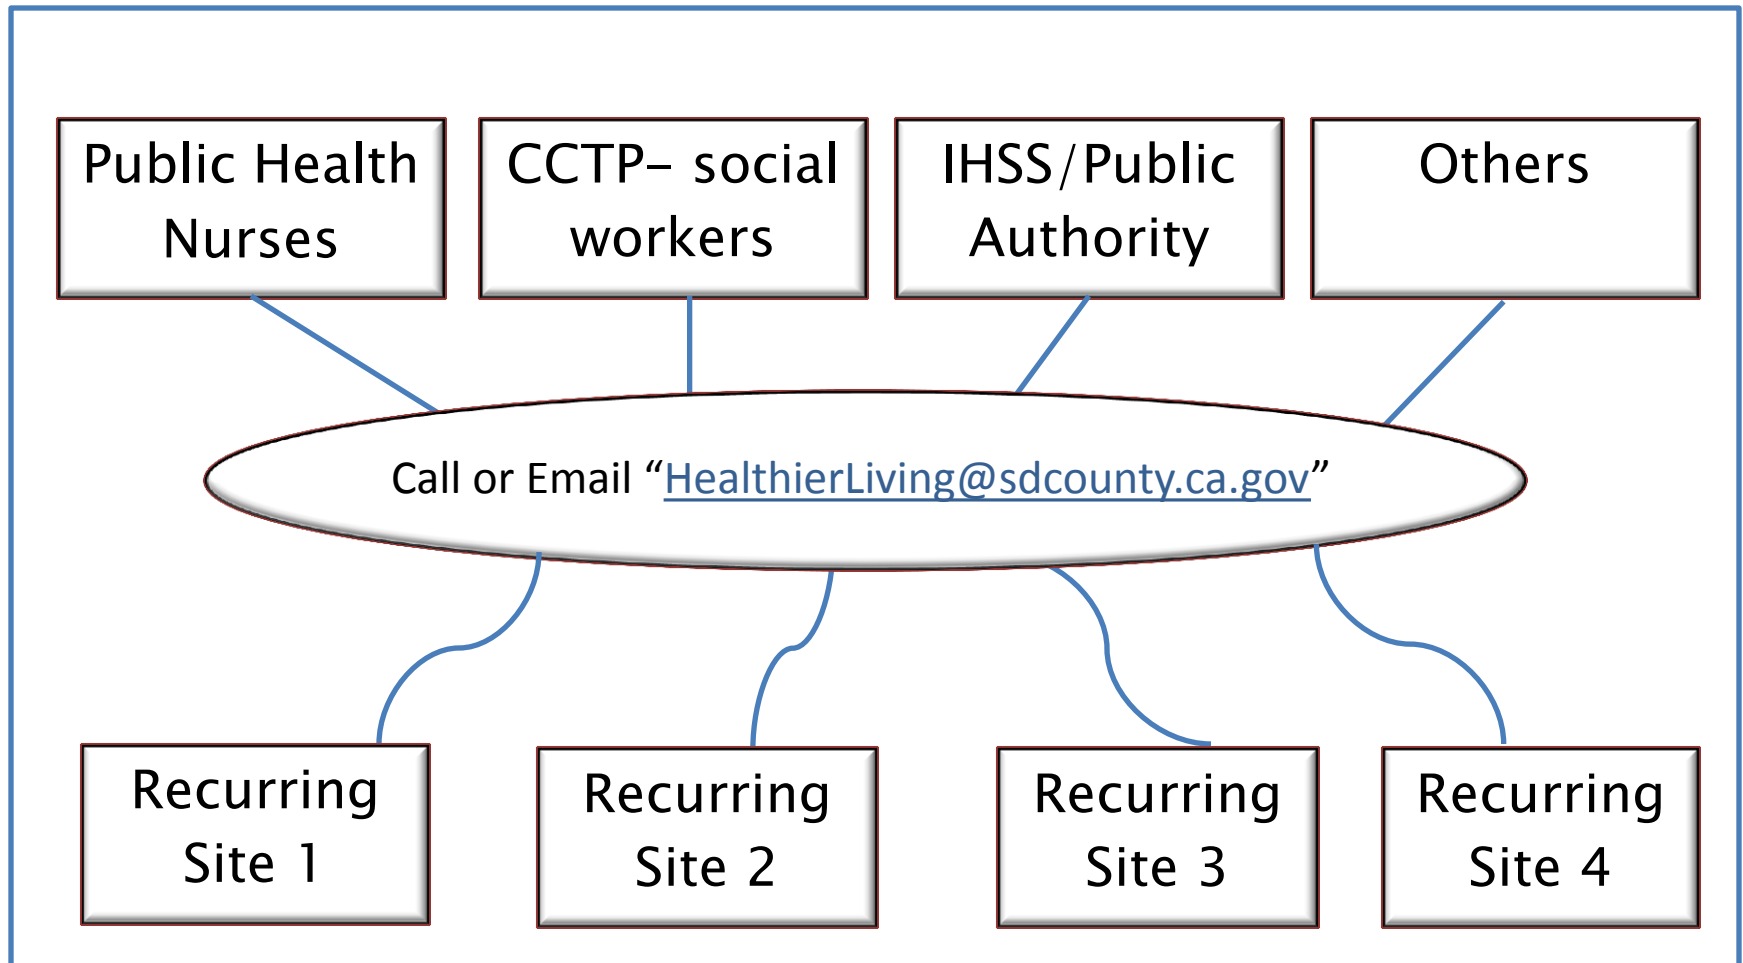

- Chronic Disease/Diabetes Self-Management (AoA & Prop 63 funding). Key partners include:
 - Kaiser
 - Sharp Rees-Steely
 - Naval Medical Hospital
 - Community Clinics
 - EMASS (social service & mental health outreach)
- Hospital-to-Home Transitions with 11 hospitals (CMS funded Community Based Care Transitions Program to avoid specific re-hospitalizations)
- Seeking Medicare reimbursement for DSMP

AIS Workshop-Hosting Partners

Referral Streams-Both CDSMP & DSMP

Positioning for Sustainability

- ✓ PEDAL infrastructure supports workshop leader fidelity, peer-to-peer leader support, collaboration across organizations, continued growth & evolution
- ✓ Multiple organizations providing these programs avoids single entity dependence
- ✓ Benefit to the bottom line for participating health/social service systems in terms of participant health outcomes
- ✓ Centralized infrastructure for coordinated referrals and workshops across multiple partners
- ✓ Promotes shared countywide goal of a healthier San Diego

WORKGROUP DISCUSSION

Sustainability

SUSTAINABILITY STATE & LOCAL LEVEL

Sustainability Goals for CDSME:

(2012 Break-out Group Discussion)

- Adopted by managed care organizations
- Utilize opportunities from the Affordable Care Act
- Self-management programs as the standard of practice
- Continuous funding
- Growth for state and local infrastructure

QUESTIONS

1. Do you see other ways to increase sustainability for CDSME?
2. Of these and the items identified in 2012, what 2-3 priorities do you have for CDSME sustainability (local or statewide)?
3. What actions, resources, or new partnerships is most critical for state and local leadership to provide for sustainability?

| Local Level | State Level |
|-------------|-------------|

WORKGROUP REPORT OUT

Sustainability

CDSME GRANT GOALS

Empowering Older Adults and Adults with Disabilities through Chronic Disease Self-Management Education Programs financed by 2012 Prevention and Public Health Funds (PPHF – 2012)

Overall Goals

Goal 1

- Significantly **increase the number** of older and disabled adults with chronic conditions who **complete** evidence based CDSME programs to maintain or improve their health status.
- **Our Target** : **8,500+ completers**

Goal 2

- Strengthen and expand **integrated sustainable delivery systems** within the state to provide CDSME programs.

TARGET POPULATIONS

Underserved adults (18+) with disabilities who are:

- Low Income
- Ethnically Diverse
- Limited/non English speaking
- Medi-Cal Eligible
- Living in rural areas
- Native Americans
- Veterans

Goal 1: Significantly increase the number of older and disabled adults with chronic conditions who complete evidence based CDSME programs to maintain or improve their health status.

**Chronic Conditions of CDSME Participants
September 1, 2012 – August 31, 2013**

Source: 2013, NCOA Database, California.

Goal 1: Significantly increase the number of older and disabled adults with chronic conditions who complete evidence based CDSME programs to maintain or improve their health status.

Performance Goals Years 1-4: 9/15/2012 to 8/31/2015

Goal 2: *Strengthen and expand integrated, sustainable service systems within California to provide evidence-based CDSME programs*

Statewide Delivery Partners and Sites 9/1/2012 to 10/1/2013

42 Host Sites (Delivery Partners)

An organization or agency that sponsors evidence-based programs

Often responsible for:

- Training
- Master Trainers and leaders
- Planning and monitoring the implementation of workshops.
- Holding the license to train and offer the program
- May also serve as an implementation site.

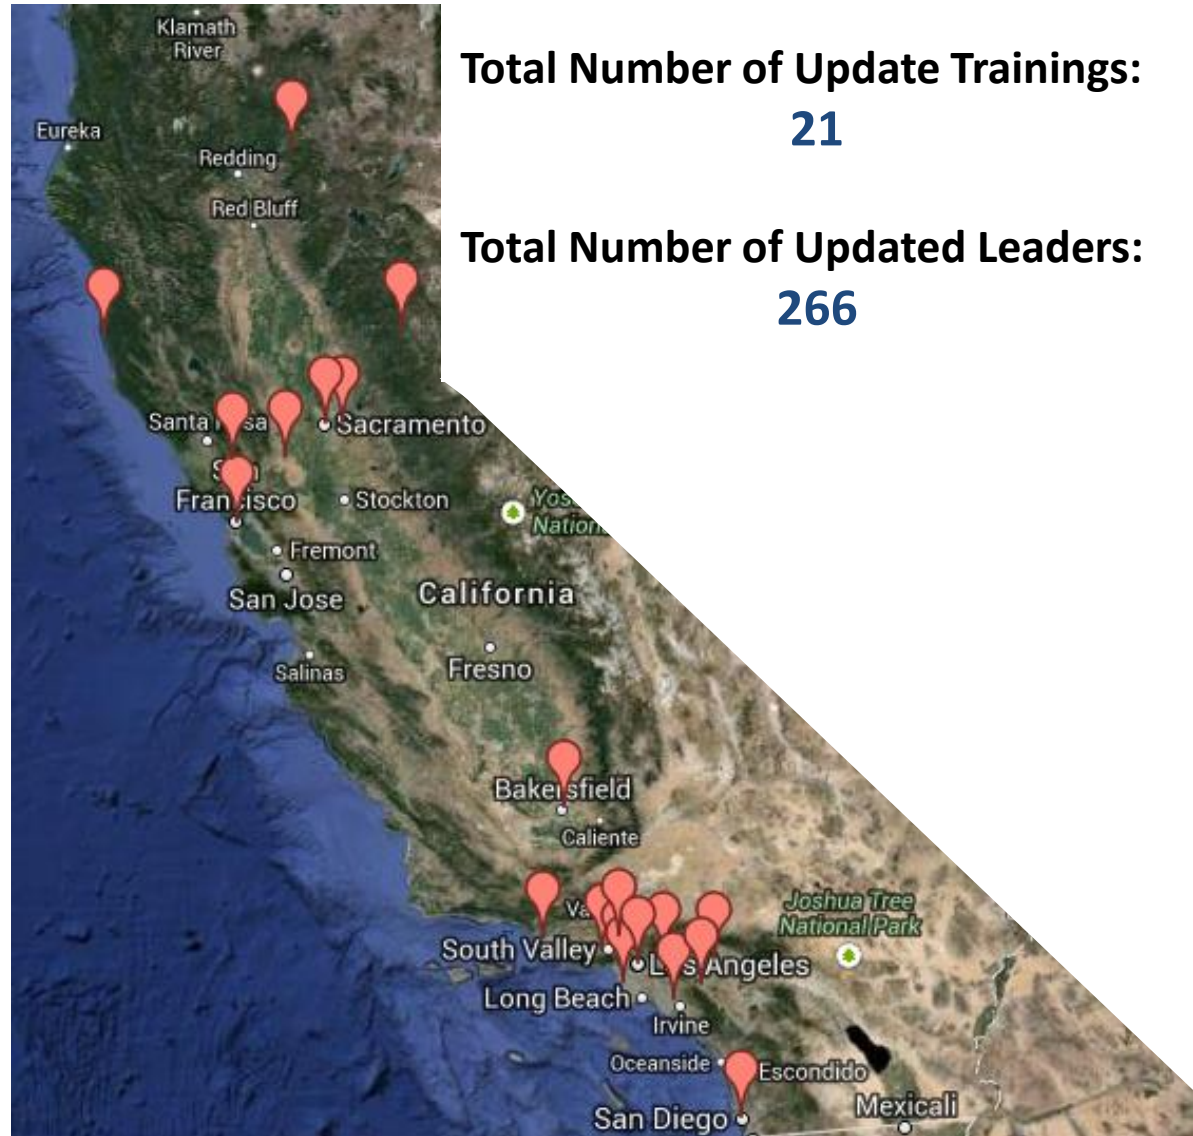

163 Implementation Sites (Delivery Sites)

- The physical location where program workshops are offered in the community.
- An implementation site may be identical to the host organization, or it may be a location (such as a community center, health care facility, church, etc.) that the host organization arranges to use
