- Received by CDA: \$25,086,381
- Distributed to AAAs: \$23,832,062
- Total Distributed Statewide Projects Funding: \$1,254,319

Coronavirus Aid, Relief, and Economic Security Act

- Received by CDA: \$86,505,282
- Distributed to AAAs, ADRCs, Ombudsman: \$59,671,495
- Total Distributed Statewide Projects Funding: \$4,176,000
- Balance of CARES to be distributed to AAAs: \$18,181,788

Aging and Adult Services: COVID-19 Data Dashboard

CDA COVID-19 Response Data Dashboard

The California Department of Aging's (CDA) COVID-19 Response Data Dashboard* shares data to demonstrate how CDA is adapting programs and services during the COVID-19 pandemic to serve older adults, families, and caregivers.

This dashboard includes data on the following:

- CDA's Home Delivered Meals for Older Adults
- Information and Assistance Calls: Local Area Agencies on Aging
- Information and Assistance Calls: Statewide Inbound Calls
- Supportive Services and Health Care at Home for Older Adults
- Statewide Demographic Data on Older Adults, Fiscal Year 2018-2019
- County Demographic Data on Older Adults, Fiscal Year 2019-2020

The data displayed on this dashboard is collected from local Area Agencies on Aging (AAAs), CDA programs, and other available data.

*Numbers may include estimates and are subject to change.

► 🍴 CDA's Home Delivered Meals for Older Adults

► 📞 Information and Assistance Calls: Local Area Agencies on Aging (AAAs)

► 📞 Information and Assistance Calls: Statewide Inbound Calls

► 🏠 Supportive Services and Health Care at Home for Older Adults

Using Data for Action

Public display of all data reported weekly by our network of local Area Agencies on Aging

MPA Stakeholder Engagement Process Wraps Up
Stakeholder Advisory Committee (SAC) Releases Final Recommendations to Administration

What's Next for the MPA Process?

On September 15th, the SAC released over 800 Master Plan for Aging recommendations. The California Health and Human Services Agency and an All Cabinet Work Group are currently reviewing these recommendations and developing the MPA with the Governor this fall. This December, the Governor will release the final Master Plan for Aging, including the MPA State Plan, Local Playbook, and Data Dashboard in alignment with the Governor's Alzheimer's Prevention and Preparedness Task Force. We look forward to partnering with state and local government, non-profit, and private entities on implementation of the Master Plan in 2021.

2019-2020 Together We Engage Stakeholder & Public Engagement Process

Since the Governor's Executive Order in June 2019, the Master Plan for Aging's *Together We Engage* campaign has included nine SAC meetings, as well as thirteen Long-Term Services & Supports Subcommittee, six Research Subcommittee, and four Equity Work Group meetings. In between these meetings, countless hours of work took place, including review and consideration of over 240 stakeholder organization recommendation letters and over 1,000 public comments collected via meetings, surveys, email, nine *Webinar Wednesdays*. Legislators convened communities with us to discuss the MPA at six legislative round tables. Throughout the past year, the MPA team has gathered a wide range of input through dozens of MPA forums with associations, local communities, and private sector partners.

This engagement process has culminated in over 800 Stakeholder Advisory Committee recommendations to inform the final Master Plan for Aging. An executive summary was released by SAC lifting up Long-Term Services and Supports, Housing, Poverty, Equity and Leadership priorities.

Together We Engage: Summer 2020

Following a two-month pause to focus on COVID-19 response efforts, the Stakeholder Advisory, public, and partner activities resumed in May 2020.

Summer Subcommittee and Work Groups Activities

The Research Subcommittee met twice to determine an MPA Research Agenda, as well as to inform the development of the MPA Data Dashboard. The Long-Term Services and Supports Subcommittee met three times for discussion of the proposed Long-Term Care at Home Benefit, and the Equity Work Group met twice to develop MPA equity recommendations, an equity tool, and an equity glossary for use in the MPA planning and implementation phases.

Public Input on COVID-19

In July, CDA released a public online *COVID-19 Impacts and Recommendations Survey*. Over 1700 responses, which emphasized social isolation, timely health care access, and the role of technology and the internet, were summarized and shared with the Stakeholder Advisory Committee. To respond to those needs, a *resource card* was produced and shared out on social media. (Please continue to share).

Knowing Our History, Listening to Our Elders

In August, CDA began a project to interview retired and long-serving leaders of California's aging policy and programs whose experience, perspective, and insight will inform our future planning. A timeline and stories will be included in the final Master Plan.

Private Sector Partners

Dr. Director McCoy Wade participated in USC Annenberg Norman Lear Center's Hollywood, Health & Society's *For Older Adults & Caregiving in the Age of COVID-19*, as well as participated in the Milken Institute's Summer on California's Older Demographic Future.

Stakeholder Advisory Committee Meetings

After a brief pause to focus on COVID-19 response efforts, the SAC re-convened on May 28th, moving forward with the rest of its MPA recommendations. On September 15th, the SAC presented its *executive summary*, seven *small group* final recommendations to inform the Master Plan. The SAC was kindly joined by Master Plan for Aging and Senate Bill No. 228 sponsor, Senator Hannah-Bass (District 19) who shared remarks.

Stakeholder Advisory Committee's Final Recommendations Submitted on September 22:

- [Executive Summary](#) (5 core priorities): equity, leadership, system of long-term services & supports, housing, and poverty
- [Final reports available on CHHS MPA webpage](#) (800-plus recommendations)
- Includes cross-cutting proposals on [climate change](#), [technology](#), and [university research](#)

[Alignment with The Governor's Alzheimer's Disease Prevention & Preparedness Task Force](#), led by Maria Shriver – recommendations forthcoming

**Governor's Task Force on
Alzheimer's Disease
Prevention and Preparedness**

Healthy Aging Initiative

California Healthier Living Coalition

November 9, 2020

Elizabeth Jones, MPH

California Department of Public Health (CDPH)

Center for Healthy Communities
Injury and Violence Prevention Branch

Presentation Goals

- What is the Healthy Aging Initiative
- CDPH Activity Areas Around Older Adult Health
- Healthy Aging Workgroup
- Healthy Aging Initiative Website
- California Healthy Aging Convening

Healthy Aging Initiative

A comprehensive approach to aging that aligns resources from across the California Department of Public Health to increase public health's capacity to address health concerns of older adults and their caregivers.

Vision: A public health system that supports healthy, resilient, thriving residents throughout the entirety of their lifespan.

Mission: To amplify, align, and coordinate local and statewide public health efforts to create nurturing, healthy, and inclusive environments for older adults and their support networks.

CDPH Activity Areas Related to Older Adults Health

- Influenza
- Nutrition
- Colon Cancer
- Stroke & CVD
- Diabetes
- Alzheimer's and Dementia
- Health Care Quality – Licensing & Certification
- Injury Prevention & Traffic Safety
- Gambling Disorder
- Opioid Overdose Prevention
- Violence Prevention Initiative
- Emergency Preparedness
- Oral Health
- Climate Change Vulnerability
- Grandparents as Caregivers

Additional Older Adult Areas of Concern

- **Housing**
- **Healthcare Affordability**
- **Transportation**
- Long term care and support services
- Skilled Caregivers
- Employment
- Financial Security
- Exploitation
- Loneliness Social Isolation

- Depression
- Alcohol
- Financial Security

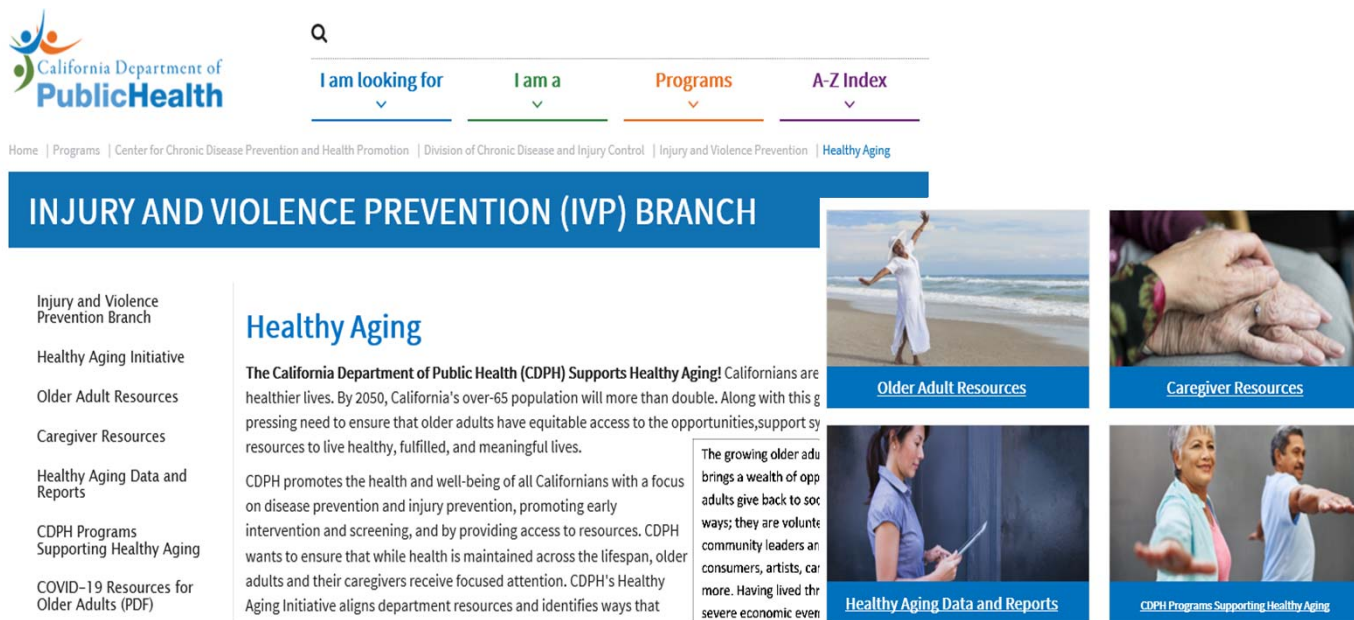

Healthy Aging Workgroup

- Membership: Over two dozen staff members from across the Department's six Centers
- Includes staff working in areas that are a concern for older adults
- Two subgroups: Healthy Aging Data Team and Communications Team

Healthy Aging Initiative Website

The screenshot shows the website for the Healthy Aging Initiative. At the top is the California Department of Public Health logo and a search bar. Below the logo is a navigation menu with links: "I am looking for", "I am a", "Programs", and "A-Z Index". A breadcrumb trail reads: "Home | Programs | Center for Chronic Disease Prevention and Health Promotion | Division of Chronic Disease and Injury Control | Injury and Violence Prevention | Healthy Aging". The main heading is "INJURY AND VIOLENCE PREVENTION (IVP) BRANCH". On the left is a sidebar with links: "Injury and Violence Prevention Branch", "Healthy Aging Initiative", "Older Adult Resources", "Caregiver Resources", "Healthy Aging Data and Reports", "CDPH Programs Supporting Healthy Aging", and "COVID-19 Resources for Older Adults (PDF)". The main content area features a "Healthy Aging" section with a paragraph about the growing older adult population and a list of resources. To the right are four image-based links: "Older Adult Resources" (a person on a beach), "Caregiver Resources" (hands being held), "Healthy Aging Data and Reports" (a person with a laptop), and "CDPH Programs Supporting Healthy Aging" (two people exercising).

California Department of Public Health

Home | Programs | Center for Chronic Disease Prevention and Health Promotion | Division of Chronic Disease and Injury Control | Injury and Violence Prevention | Healthy Aging

INJURY AND VIOLENCE PREVENTION (IVP) BRANCH

Healthy Aging

The California Department of Public Health (CDPH) Supports Healthy Aging! Californians are healthier lives. By 2050, California's over-65 population will more than double. Along with this g pressing need to ensure that older adults have equitable access to the opportunities, support sy resources to live healthy, fulfilled, and meaningful lives.

CDPH promotes the health and well-being of all Californians with a focus on disease prevention and injury prevention, promoting early intervention and screening, and by providing access to resources. CDPH wants to ensure that while health is maintained across the lifespan, older adults and their caregivers receive focused attention. CDPH's Healthy Aging Initiative aligns department resources and identifies ways that

The growing older adu brings a wealth of opp adults give back to soc ways; they are volunte community leaders an consumers, artists, car more. Having lived thr severe economic even

Injury and Violence Prevention Branch

A green vertical line and a blue vertical line are on the left side of the slide. A blue arrow points downwards from the top of the blue line. An orange horizontal arrow points to the right across the middle of the slide.

California Healthy Aging Convening

Purpose

- To engage Local Health Jurisdictions (LHJ) in a process to look at public health aging issues, establish priority areas, and generate recommendations on how to move forward

Format

- Presentations by CDPH's HAI, Fusion Center, and Office of Health Equity & Purposeful Aging LA
- Breakout sessions around priority areas to determine next steps

Convening Breakout Session 1

Below is a summary of the biggest challenges discussed:

- Providing support/TA during COVID-19
- Being intentional in addressing health equity
- Funding & staffing
- Digital access
- Data availability

Convening Breakout Session 2

Below is a list of areas participants would like to further address:

- **Equity** – equity data availability, equity in rural areas
- **Coordinated systems** – coordinated care, easily navigated care, addressing fragmented programs
- **Partnerships** – strengthening partnerships & collaboratives, exploring non-traditional partnerships, involving more diverse partners
- **Livable communities** – improvements in transportation, food access/insecurity, injury prevention, safety, social isolation, housing insecurity/affordability, digital access/digital divide
- **Community engagement** in decision making
- **Data** gaps

Next Steps

- Share Health Equity Tool with Local Public Health Departments
- Healthy Aging Workgroup will continue to work on Health Equity activities
- Summer 2021 Convening – Part 2 of our Health Equity Series

A green vertical line and a blue vertical line are positioned on the left side of the slide. The green line has a green arrow pointing downwards at its base. The blue line has a blue arrow pointing downwards at its base. A horizontal orange arrow points from the left edge of the slide towards the right, passing behind the 'Thank You!' text.

Thank You!

Track Health Promotion Program Guidance During COVID-19

Posted on March 23rd, 2020

- Survey
- Always implemented remotely
- Temporarily allowable by phone or video-conference
- Not allowable remotely

During a period of physical distancing due to COVID-19, community-based organizations are canceling health promotion programs and exploring options for connecting remotely. Check this page regularly for updates from individual programs on whether it's feasible to continue implementation when in-person gatherings are not possible. If you have program information that is not included, please email [Kathleen Zuke](mailto:Kathleen.Zuke@ncoa.org).

• [Frequently Asked Questions: COVID-19 and Health Promotion Programs](#)

- Each evidence-based program has its own set of guidance on how to proceed with remote delivery when in-person is not possible.
- Some programs have been approved for remote delivery, while others are not.
- If you have a question and don't know who to ask, email healthyaging@ncoa.org

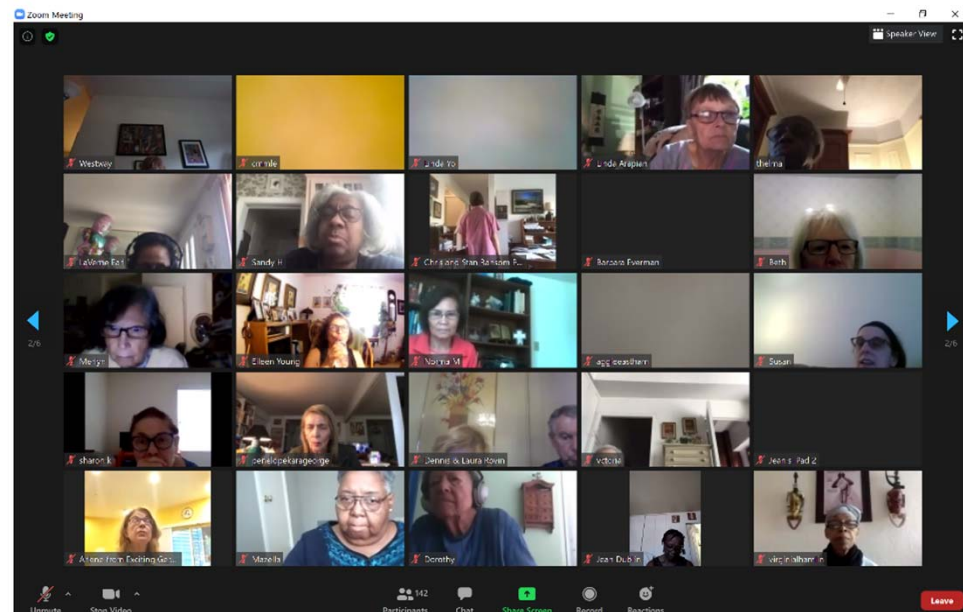

RESPONSE TO REMOTE

To offer continued guidance, NCOA:

- Hosted several webinars:
 - Offering Evidence-Based Programs During the COVID 19 Pandemic
 - Webinar: Tools and Tips for Reaching a Remote Audience
 - Tools for reaching a remote audience tip sheet
- Grand Rounds webinars: A weekly, now monthly, call to highlight best practices and share resources on remote programming:
<https://www.ncoa.org/uncategorized/upcoming-and-archived-events-health-promotion-programs-and-covid-19/>

EARLY FINDINGS

- Program Delivery:
 - Online
 - Telephone
 - Mail
 - Hybrid
- Preferences
- Equity
- Redefining community

Successful Strategies: Outreach and Recruitment

- **Engaging Participants**
 - Finding connections
 - Using Motivational Interviewing to increase comfort
 - Safety and Settings
 - New opportunities reach broader geographic areas
- **Connections to programming**
 - Access to internet
 - Streaming programs using partnerships with companies and local public access channels
 - Faith-based organization groups
 - Congregate settings

Successful Strategies: Technology Access & Education

- Schedule a “session-zero” to introduce the workshop and address technology-related questions
- Include an additional staff member in workshops to assist with technology questions
- Hold one-on-one calls to walk-through the process of joining a videoconference
- Consider purchasing devices for participants to use through a lending library
- Provide training and practice sessions for leaders

Teaching Adults Technology

Updated September 21, 2020

TeachSD Toolkit and Covid-19

The covid-19 pandemic is inspiring many individuals and organization across the country to use technology to connect with the people they serve. Estimates suggest that one in ten Americans do not use the internet. Lack access to broadband and costs associated with technology (e.g., monthly access fee) are barriers to using technology. Another reason for not using technology is not seeing it as relevant to themselves. Covid-19 provides a perfect opportunity to learn and teach technology skills.

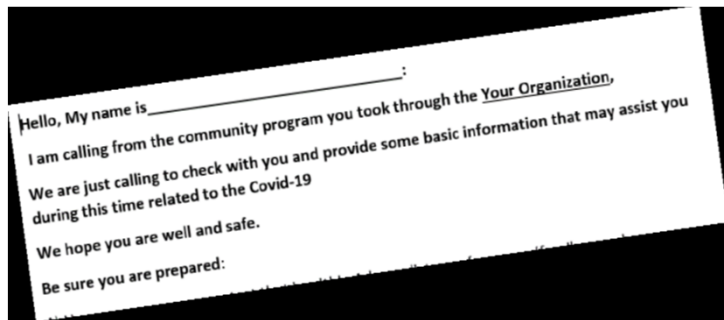

Toolkit Summary

The TeachSD toolkit is the result of a two-year intergenerational technology program pilot. The toolkit includes three videos, an implementation guide, and a technology trainer orientation guide. These materials are designed to help individuals and communities develop an intergenerational technology training program in their community.

<https://extension.sdstate.edu/teaching-adults-technology>

INNOVATION IS HAPPENING

PROGRAM FORMS

Virtual Delivery Forms

Virtual Juniper Class Toolkit

Welcome to the Virtual Juniper® Class toolkit. The toolkit compiles processes and resources to support Juniper providers implementing virtual Juniper classes in communities across Minnesota.

The modules in the toolkit contain resources and information focused on implementing, evaluating, and sustaining virtual Juniper evidence-based health promotion program classes.

1: Introduction

The social distancing guidelines needed to curtail the COVID-19 Pandemic carry the unintended consequence of social isolation among older adults, and service disruption for the community-based organizations that serve them. This toolkit identifies options and models for virtual implementation of Juniper classes, as well as other resources for health and wellbeing.

CLINICAL-COMMUNITY CONNECTIONS

RESPONSE TO REMOTE

- Programs are ongoing and received well!
- Completion rates and attendance are higher compared to in-person programs.
- Hard-to-reach populations are accessing and participating in programs.
- Creativity – acquiring technology, accessing internet, unique partnerships, program settings.
- Collaboration – sharing of resources, templates, ideas for dissemination

HOW DO WE SHARE?

- Register for the Grand Rounds webinars: A monthly, call to highlight best practices and share resources on remote programming:
<https://www.ncoa.org/uncategorized/upcoming-and-archived-events-health-promotion-programs-and-covid-19/>
- [Frequently Asked Questions](#): COVID-19 and health promotion programs – Questions from community-based organizations on how they can continue offering health promotion programs during the pandemic.
